PARTNER WITH GLOBAL CITIZEN FOR YOUR PROGRAM REQUIREMENTS TO
GIVE YOUR CLIENT THE BEST POSSIBLE SERVICE AND VALUE!

GJ GLOBAL
CITIZEN®

EASY PROGRAM

- SERVICE -

Expand your sourcing and product fulfilment capabilities with our custom program service! This service allows you to easily design a customized or stocked uniform/promotional product program that is specifically tailored to your client's needs. We ensure the program suits their corporate identity and that you are also able to easily service that program.

HOW IT WORKS:

Global Citizen products can be customized in various ways to match what your customer needs for their program. We can also develop products based on a customer brief or sample received. This is not only limited to apparel products, we can also develop and source any promotional product you can think of including mugs, bags, towels, flags, keyrings, USBs etc. The list and possibilities are endless. When customizing products from our stocked range, we can assist you in choosing different fabrics or color shades. Trims (such as pockets or piping) can be added. Our unique manufacturing profile allows us to offer customized manufacturing runs faster and with smaller minimums compared to many other manufacturers.

HOW WE HELP YOU:

- ✓ Free professional storyboards or project decks will be supplied as per your specifications for you to present to your client to give them a graphic impression of what the program and their brand would look like on the products requested.
- ✓ Free branded pre-production samples are provided for production approval purposes.
- ✓ Customized products can be put into stocked inventory for larger programs to ensure continuity of your client's uniform.
- ✓ Online ordering websites can be developed for larger programs to allow for convenient ordering for both you, your client and their staff, outlets or franchises.
- ✓ An in-house program specialist can assist you in presenting the program to your client, to discuss our capabilities and lend expertise in coming up with solutions for the program.
- ✓ Financial assistance can be provided in funding large uniform programs. There are different ways to structure a financial plan that would work for all parties.

ROYAL, CHARCOAL, KHAKI, BOTTLE &
WHITE ARE SHIP-TO-ORDER

SHIP-TO-ORDER

Giving you access to the best in promotional and uniform apparel and accessories, covering a number of different industries and categories!

To help give you access to the full, comprehensive Global Citizen Apparel international range, we have not only included products that are stocked in Canada, but also ship-to-order products in this catalog. Should you require a ship-to-order item on a regular basis, please enquire with us, and we can stock this item locally for you!

Ship-to-order products can be identified by the ship-to-order tag that is located on the product page as below:

A sizing sample range of all ship-to-order products is immediately available from our showroom in Oakville, ON. These samples are available for you and your clients to approve in terms of look and fit. Once samples are approved, there are 2 shipping options for these products:

OCEAN FREIGHT OPTION:

Ocean freight takes approximately 6 weeks from the date of the confirmed order receipt to the date it arrives in our Mississauga, ON warehouse. There is no extra cost for ocean shipping and there are no minimum order quantities. All pricing on the ship-to-order product pages in this catalog are based on 6-week ocean freight.

AIRFREIGHT OPTION:

Airfreight takes roughly 1 week from the date of the confirmed order receipt to the date it arrives in our Mississauga, ON warehouse. Due to high transport costs, pricing per unit is higher and there is a minimum order quantity. GC Apparel would need to quote per order for airfreighting as pricing is dependent on the weight of the total order. The general rule of thumb is that the more units there are in one order, the lower the price per unit for airfreighting. Airfreight pricing in our price list is an estimate based on the minimum quantity provided. Airfreight pricing will be confirmed once the order has been packed as it is based on the dimensions and weight of the order.

ICON DESCRIPTIONS:

A superior quality dyeing process ensures brighter colors and prevents fibers from weakening during the printing process

Garments require little or no ironing and are often crease resistant

The garment contains breathable moisture management fabric which wicks perspiration from the skin to the outer surface and dries quickly through evaporation

The garment contains fluorescent colors and/or reflective tape to increase visibility

A process where the shorter cotton fibers are discarded and impurities removed, making the yarn stronger, smoother, softer and more compact

Fabric offers multi-dimensional stretch allowing flexibility and a more tailored fit

Fabric has water resistant properties

Fabric or garment is waterproof

Fabric has wind resistant properties

Product offers superior resistance to fading
